INTRODUCTION

An internship serves as a bridge between academic learning and the practical application of knowledge in a real-world setting. It helps students develop industry relevant skills, gain professional exposure, and understand the functioning of organizations from within. For management students, internships are crucial for exploring how business theories are implemented in practice. As part of the B.Com program, I had the opportunity to undertake my first internship at Hayra Gold And Diamonds, from 2nd April to 26th May. The internship focused on the area of Accounting & Taxation and provided me with valuable exposure to various practical aspects of the field.

Throughout the internship, I was actively involved in a range of meaningful activities, including preparation of financial statements, bookkeeping, GST return filing, and assisting in audit-related work. I also gained hands-on experience in accounting software such as Tally Prime, and learned how to maintain accurate financial records in a professional environment. These tasks helped me develop a deeper understanding of core accounting and taxation concepts and how they are applied in real-world business scenarios.

This internship not only enhanced my technical skills in accounting and taxation but also improved my attention to detail, analytical thinking, and communication skills. It was a truly enriching experience that has laid a strong foundation for my future career in the field of accounting and finance.

OBJECTIVES OF THE INTERNSHIP

As part of my B.Com curriculum, I had the opportunity to undergo an internship training program offered by Hayra Gold And Diamonds . This was my first internship experience, and I approached it with the intention of gaining practical exposure to real-world Accounting & taxation activities.

The main objectives I had while joining this internship were:

1. To gain practical knowledge and hands-on experience in accounting and taxation through structured training and real-time assignments.
2. To understand key accounting functions such as bookkeeping, preparation of financial statements, GST return filing, and audit assistance.
3. To develop proficiency in using accounting software such as Tally Prime for maintaining accurate financial records.
4. To improve professional skills such as analytical thinking, attention to detail, communication, and teamwork through practical exposure.
5. To apply the theoretical concepts learned in the classroom to real-world accounting and taxation practices under expert guidance.

COMPANY PROFILE

COMPANY OVERVIEW

Hayra Gold & Diamonds is a trusted jewellery destination established in 2016, offering premium quality gold and diamond ornaments to customers seeking elegance, craftsmanship, and value. Located in Kottakkal, the company is known for its extensive collection of jewellery designs that cater to traditional, contemporary, and bridal preferences.

With a commitment to quality and customer satisfaction, Hayra Gold & Diamonds has earned a reputation as one of the leading jewellery stores in Malappuram, providing exquisite ornaments that celebrate life's special moments.

Vision

"To be the most trusted and preferred jewellery brand in Malappuram by offering outstanding quality innovative designs, and exceptional customer service."

Mission

"To provide customers with premium-quality gold and diamond jewellery that combines exceptional craftsmanship, elegance, and lasting value."

Commitment to Quality

At Hayra Gold & Diamonds, every ornament is carefully selected and crafted to meet the highest standards of quality and beauty. The company strives to provide customers with jewellery that reflects sophistication, tradition, and timeless elegance.

Core Services

The operational structure and accounting domains within the corporate headquarters cover several key specialized areas:

- Financial Accounting & Compliance: Learning the financial mechanics of a high-volume retail jewelry business, focusing on precision, inventory valuation, and local tax compliance.
- Retail Operations Management: Understanding customer workflows, inventory tracking across branches (Kottakkal, Vengara & Tirur), and internal departmental coordination.
- Inventory Control & Precious Metal Accounting: Jewelry accounting differs heavily from standard retail because inventory value fluctuates daily based on global market rates.
- Retail Management & Customer Operations: Accounts work relies heavily on front-end showroom operations; this domain bridges that gap effectively.
- Corporate Communication & Office Administration: Developing the soft skills and administrative discipline required to work effectively within a corporate head office environment.

INTERNSHIP ACTIVITY REPORT

ACTIVITY LOG FOR THE FIRST WEEK

DAY &DATE	BRIEF DESCRIPTION OF THE DAILYACTIVITY	LEARNING OUTCOME	PERSON IN CHARGE
Day – 1	INTRODUCTION TO THE OFFICE WORK AND ACCOUNTMATE	Basic understanding of Accountemate	MR MOHAMMED SINAD P
Day - 2	ACCOUNT MASTER	Learned how to Create Company	MR MOHAMMED SINAD P
Day – 3	RECEIPT AND PAYMENT	• Receipts: Track cash, UPI, and scheme inflows by debiting the bank or cash account.	MR UBAID
Day – 4	RECEIPT AND PAYMENT	•Payments: Record supplier bills and operational expenses by crediting the cash or bank account	MR MOHAMMED SINADP

Day – 5	JOURNAL ENTRY	• Cash/UPI Sale: Dr.. Cash/Bankand Cr. Sales with GST. • Scheme Advance: Dr. Cash/Bank and Cr. Customer •Scheme. Old Gold Exchange: Dr. Old Gold Stock and Cr. Customer. • Vendor Payment: Dr. Vendor and Cr. Bank. • Daily Expenses: Dr. Expense and Cr. Cash.	MR MOHAMMED SINAD P
Day – 6	DAYBOOK	A Day Book is a. daily chronological record of all cash, bank, and stock transactions.	MR MOHAMMED SINAD P

Weekly Report – Week 1: (From 06/04/2026 to 11/04/2026)

During the first week of my internship at Hayra Gold and Diamonds, I was integrated into the operational workflow of the Accounts Department. Under the systematic guidance of senior supervisors, I commenced technical training on Tally Prime, specifically configured for the intricate requirements of the luxury retail jewelry sector. Initial benchmarks included understanding the multi- tiered enterprise architecture and structural organization unique to gold and diamond retail management.

Early responsibilities involved navigating advanced profile parameters and initializing specific ledger categories crucial for gold accounting. This included establishing clear categorizations for purchase accounts, gold stock ledgers, local sales records, consumer credit portfolios, and cash/ bank operational accounts. Understanding the absolute precision required in jewelry accounting underscored the vital importance of maintaining precise real-time records.

As technical integration progressed, I observed and assisted in documenting daily standard transactions, focusing heavily on retail billing, purchase invoices, and the meticulous application of the Goods and Services Tax (GST) framework for gold ornaments. This experience provided practical clarity on compliance structures, metal weight recording, and pure-to-alloy calculations essential to standardizing documentation in modern retail environments.

ACTIVITY LOG FOR THE SECOND WEEK

DAY &DATE	BRIEF DESCRIPTION OF THE DAILYACTIVITY	LEARNING OUTCOME	PERSON IN-CHARGE
Day – 1	PURCHASE INVOICE PROCESSING	Learned to record gold and diamond purchase invoices, verifying purity certifications gross/net weight, and applicable GST rates.	MR UBAID
Day - 2	INVENTORY VALUATION & RATEUPDATION	Understood daily gold rate updates in the system and how they impact inventory valuation and profit margins.	MR. MOHAMMED SINAD P
Day – 3	CUSTOMER SCHEME MANAGEMENT	Learned to manage customer advance schemes (monthly deposit plans), track maturity dates, and process redemptions.	MR UBAID
Day – 4	BANK RECONCILIATION	Performed bank recognition by matching daily UPI, card and NEFT settlements with bank statements.	MR. MOHAMMED SINAD P
Day – 5	GST RETURN PREPARATION – PART 1	Assisted in preparing GSTR-1 by extracting outward supply data and verifying HSN codes for jewellery items.	MR UBAID

Day – 6	GST RETURN PREPARATION – PART 2	Assisted in preparing GSTR-1 by extracting outward supply data and verifying HSN codes for jewellery items.	MR UBAID

Weekly Report – Week 2: (From 13/04/2026 to 18/04/2026)

The second week marked a significant transition from foundational learning to active participation in core accounting functions. I was entrusted with processing purchase invoices, which required meticulous verification of gold purity certifications, hallmarking details, and the accurate recording of gross weight, net weight, wastage, and making charges. This exercise reinforced the importance of precision in precious metal accounting.

A major highlight of this week was learning inventory valuation in the context of daily fluctuating gold rates. I observed how the system automatically adjusts the value of existing stock based on the day's market rate, directly impacting the company's profitability and financial reporting. I also gained hands-on experience in managing customer advance schemes—a popular offering in the jewelry industry where customers deposit monthly installments and redeem gold at the end of the term. Tracking these schemes required careful monitoring of payment schedules, maturity dates, and redemption values.

Towards the end of the week, I was introduced to bank reconciliation and GST return preparation. Reconciling UPI, card, and NEFT settlements with bank statements taught me the importance of timely error detection and correction. I also assisted in extracting outward supply data for GSTR-1 filing, gaining clarity on the classification of jewelry under appropriate HSN codes and applicable GST slabs

ACTIVITY LOG FOR THE THIRD WEEK

DAY &DATE	BRIEF DESCRIPTION OF THE DAILYACTIVITY	LEARNING OUTCOME	PERSON IN-CHARGE
Day – 1	GST RETURN PREPARATION– PART 3	Assisted in finalizing GSTR-3B, matching inputtaxcredit(ITC) with purchase invoices and verifying tax liability.	MR MOHAMMED SINADP
Day - 2	OLD GOLD EXCHANGE ACCOUNTING	Processed old gold exchange transactions, calculating the difference between buyback value and new purchase value, and recording accordingly.	MR.UBAID
Day – 3	EXPENSE MANAGEMENT & PETTY CASH	Managed daily operational expenses including staff salaries, electricity,marketing,and pettycash reconciliation.	MR MOHAMMED SINADP
Day – 4	MONTH-END CLOSING PROCEDURES	Assisted in month-end closing by preparing trial balance, verifying ledger balances, and organizing management data for review.	MR.UBAID

Day – 5	FINAL REVIEW & AUDIT PREPARATION(PART 1)	Participated in the final review of all entries for the month, prepared supporting documents forinternal audit, and compiled a summary report.	MR MOHAMMED SINADP
Day – 6	FINAL REVIEW & AUDIT PREPARATION(PART 2)	Participated in the final review of all entries for themonth,prepared supporting documents for internal audit, and compiled a summary report.	MR MOHAMMED SINADP

Weekly Report – Week 3: (From 20/04/2026 to 25/04/2026)

The third and final week of my internship was dedicated to advanced accounting functions and month-end closing procedures. I began by assisting in the finalization of the GSTR-3B return, where I learned the critical process of matching input tax credit (ITC) with supplier invoices and verifying the total tax liability. This exercise underscored the importance of maintaining accurate purchase records to avoid discrepancies during tax filing.

A significant portion of this week was spent on old gold exchange accounting—a unique and complex aspect of jewelry retail. I processed multiple exchange transactions, calculating the difference between the buyback value of old gold and the selling price of new ornaments, and ensuring that the accounting entries correctly reflected the movement of inventory and cash.

I also managed daily expense records, including staff salaries, utility bills, and petty cash reconciliation. This provided a holistic view of the company's operational costs and their impact on overall profitability. The week culminated in assisting with month-end closing procedures, where I helped prepare the trial balance, verified all ledger balances, and organized supporting documents for internal audit. This experience gave me a deep appreciation for the discipline and accuracy required in maintaining financial records for a high-volume retail business.

INTERNSHIP LEARNING OUTCOMES

• Jewelry Accounting & Valuation: Gained hands-on experience in accounting for precious metals, managing fluctuating daily gold rates, and processing calculations involving gross weight, net weight, wastage, and making charges.

• ERP & Software Proficiency: Developed practical expertise in using Tally Prime within a largescale retail environment, focusing on setting up business profiles, managing inventory tracking, and optimizing operational workflows.

• Ledger & Group Management: Mastered the structure and creation of specialized accounting ledgers, including vendor accounts, inventory assets, capital accounts, and multi-tier customer ledgers.

• Statutory Compliance & GST: Acquired a thorough understanding of the retail tax framework by calculating and applying the correct Goods and Services Tax (GST) parameters on jewelry ornaments and invoicing. Assisted in preparing GSTR-1 and GSTR-3B returns.

• Financial Reconciliation: Learned terminal day-end operations, including reconciling physical cash logs with digital ledgers, processing card/UPI settlements, and executing bank-to-bank transfers.

• Scheme Management: Gained expertise in managing customer advance deposit schemes, tracking payment schedules, and processing redemptions with accurate interest and valuation adjustments.

• Old Gold Exchange Accounting: Understood the accounting treatment for old gold buyback transactions, including the calculation of exchange value and the corresponding inventory and cash entries.

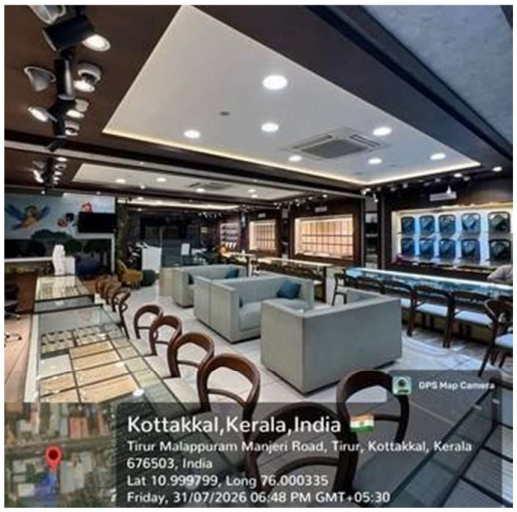

• Month-End Closing & Audit Readiness: Participated in preparing trial balances, verifying ledgers, organizing supporting documents, and ensuring data readiness for internal and statutory audits.

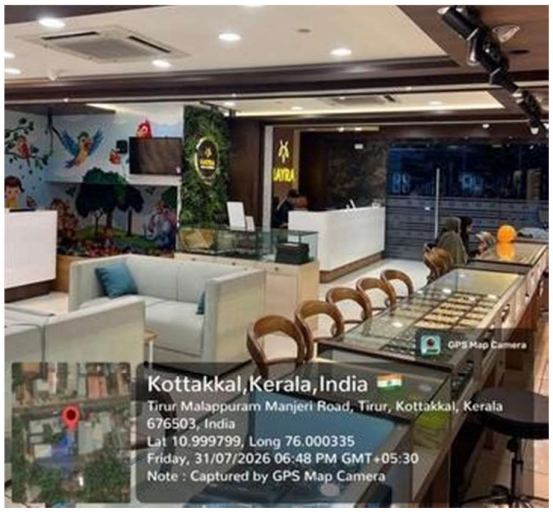

CONCLUSION

The internship at Hayra Gold and Diamonds has provided invaluable practical exposure to corporate accounting within a fast-paced retail environment. It successfully bridged the gap between academic financial theory and real-world operational challenges. Through hands-on training with AccountMate/Tally Prime, managing specialized jewelry inventories, and navigating complex GST compliance, I have developed a deep appreciation for the precision and regulatory diligence required in precious metal accounting.

This experience has significantly boosted my technical confidence, enhanced my data reconciliation skills, and instilled a strong understanding of audit readiness. The insights and guidance gained from the senior management team will serve as a foundational pillar for my professional growth in the finance and accounting sectors.

Overall, this internship has not only enhanced my accounting knowledge but has also developed my communication, teamwork, analytical thinking, and problem-solving abilities. It has prepared me to transition confidently into the professional world with greater awareness, responsibility, and enthusiasm. This experience will serve as a strong foundation for my future career in accounting and finance.
